

An aerial, grayscale view of a city with numerous skyscrapers and buildings. A large green graphic element, consisting of a thick L-shaped bar and a black outline, frames the central text. The green bar has a slight gradient from top to bottom.

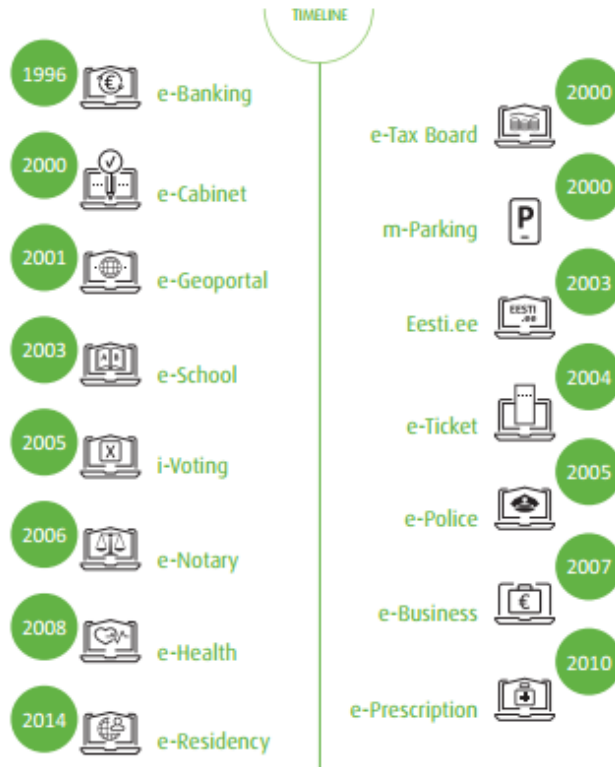

# e-Governance

The First  
Data Embassy

# Overview of Main Electronic Services in Estonia

[www.eesti.ee](http://www.eesti.ee)

# PROBLEMS

Digitalization of all the data

Data security

Major natural disasters

Data not accessible offline

# INNOVATION

- E -Estonia is the term used to describe Estonian technological development
- Estonia owns data storage servers outside it's borders
- DataEmbassy having the same rights as all the other embassies
- First Data Embassy in Luxembourg

# ACTIONS

Supporting the free movement of data across EU

Premier Ministers of both countries sign agreements on data storage

Better IT systems that will work in globally dispersed environment

# OUTCOMES

1

**NATO brought it's  
cyber-security  
headquarters to Estonia**

2

**Estonia becomes  
one of the leading  
digitally developed  
countries in the  
world.**

3

**Popularization of e-  
Residency and  
government  
transparency.**
